STAIRLIFT

STRAIGHT STAIRCASES

Stannah

“500,000 people worldwide have chosen a Stannah stairlift to help them keep their independence”

Stannah. For true freedom in your home

Life is better when you have the energy to do the things you want to do, like enjoying a visit from the grandchildren or entertaining friends. Our experience has taught us that the sooner a stairlift is installed, the sooner you will be able to start appreciating the things you love doing. So, just imagine how a stairlift from Stannah could make your day-to-day life easier, safer and more enjoyable.

Your perfect choice of stairlift

Stannah know that not all homes are the same. If you think your stairs are unsuitable for a stairlift, we think you might be pleasantly surprised. Our slimline rail and fold-away chair leave enough space for others to use the staircase and, contrary to belief, our rails are fitted to the staircase and not the wall. This ensures that when you have your Siena stairlift installed by our friendly and professional engineers, it will be quick, easy and carried out with minimal fuss and bother.

Stannah, a company trusted for over 150 years

We are a family-run company and have been for five generations. The current managing directors are the great, great grandchildren of Joseph Stannah, who started the company in the 1860s. His engineering principles and strong family values run as true today as they always have.

Sleek and smooth

Agentle touch of the controls is all it takes to climb your stairs.

Neat, elegant and tidy

Our elegant straight rail and fold-away chair design leaves your hallway looking spacious and tidy with plenty of space for other stair-users.

Siena. Personalised to suit you

At Stannah we want you to make the most of your home. Which is why we tailor-make your Siena by adding the options you choose, before fitting the made-to-measure straight rail to fit just your staircase.

Style and comfort

Choose the Siena and you get classic comfort and style in perfect unison. The simple contours along with its choice of seven colours make it look and feel truly inviting. We have designed the Siena for simplicity and convenience, too. Settle into the comfortable seat, clip on your easy-to-use seatbelt and move the controls to glide up or down your stairs.

Easy to use

Safety and ease-of-use are built into the Siena. Your stairlift comes with a fold-away chair – just fold the arms, then the seat, which is linked to the footrest, and the chair neatly folds away, giving you more space around your stairs. There is also a removable key to lock your Siena keeping it safe from children. For those who have limited strength in their hands, you can also choose an optional one or two-way powered swivel seat which is designed for narrow hallways, that turns to face your landing or hall, making getting in and out of your Siena easy.

Easy fold for added space

When you fold your Siena arms, then the seat, the footrest folds with it, folding the chair neatly away for extra space.

Safe and simple to get on and off

Use either the manual swivel lever or our optional powered swivel seat to get on and off your Siena.

“The sales advisor was so accurate when measuring my staircase that I knew I was in safe hands”

**“Using my Siena is very easy.
The simple, light-touch controls
are right at my fingertips”**

Siena. True comfort and safety in one

We take great care to make your stairlift safe and comfortable. This is why we designed the Siena to include a range of helpful features that make you feel right at home when you use it.

Below are the benefits and features common to the Stannah Siena for straight stairs.

1. Comfortable and stylish chair

The Siena offers true comfort, with a cushioned back and generously upholstered, padded seat available in hard-wearing vinyl upholstery all of which are fire retardant, and available in a choice of seven colours to match your décor.

2. Easy-to-use controls

To operate your Siena, gently move the controls in the direction you wish to travel.

3. Folding options (Manual)

Simply fold the arms, then the seat and as you do the footrest will automatically raise at the same time. Or choose the optional powered footrest, see point 9.

4. Swivel levers and options

Use the standard manual swivel levers, or optional powered one or two-way swivel, which is designed for narrow hallways, to get off your stairlift in the safest position at the top or bottom of your stairs.

5. Safety edges

Safety sensors around the footrest and carriage automatically detect any obstruction on your stairs, bringing your Siena to a safe and gentle stop.

6. Seatbelt options

The retractable seatbelt as highlighted opposite, can be fastened simply with one hand. A range of other seatbelt designs are available.

7. Arm isolation

This safety system prevents your Siena from moving until the armrest nearest the bottom of the staircase is fully lowered.

8. On-off switch

Clear easy-to-use on and off button.

9. Powered footrest (Optional)

Our powered footrest folds or unfolds independently, ideal for you to enter or exit the chair with the footrest out of the way.

10. Adjustable seat height (On installation)

Ensures your stairlift seat and footrest height are perfectly positioned to you for complete comfort.

Two chair widths

Two chair widths - a standard arm width and a new XL arm width version tailored to the user and their staircase. (Standard width shown opposite - XL version shown below).

Siena. Your step-by-step guide

We believe a stairlift should go beyond the functional. To us, that means making it beautifully simple to operate.

1. When your Siena is not in use, it folds away giving you more space on your stairs for other users.

2. Once you have unfolded your Siena, make yourself comfortable in the seat.

3. A gentle movement of the controls is all it takes to make your Siena glide effortlessly upstairs or downstairs.

4. When you arrive at the top of the stairs, you can swivel your Siena around so you can get off safely.

5. When not in use your Siena can be left in the swivelled position as a safety barrier, or folded flat against the wall.

6. Using the wall-mounted remote control, you can send and receive your Siena to either end of the stairs.

“I love the extra peace-of-mind I get from my Siena seatbelt. I feel safe when I’m travelling”

“I was delighted the chair height on my Siena could be adjusted to suit me. My sitting position is perfect”

Siena. Designed with you in mind

No two people are ever identical, that's why as well as our standard features we also have a number of optional features which can be tailored to you.

Retractable seat belt (Optional)

Our retractable seat belt is easy to use and can be fastened with one hand.

Two widths of chair

Your Siena chair is available in two different widths, to suit you or your staircase best.

Swivel seat options

There are three swivel options available, manual swivel, one way powered and two way powered swivel.

Footrest fold button (Optional)

The one-touch, footrest fold button helps you to raise or lower the footrest independently from the seat.

“It was important my stairlift harmonised with my hallway. The Siena fits in beautifully”

Siena. Tailored just for you

We offer the Siena in a choice of seven stylish and durable vinyl colours and two complementary rail colours to match your tastes and home décor.

Pine

Cranberry

Midnight

Ivory

Walnut

Tan

Grey

Silver Rail

Bronze Rail

Upholstery and rail colours
You are able to choose any of the seven upholstery colours with either the Silver or Bronze rails to tailor your Siena to what suits your home best.

The upholstery is heavy duty vinyl which is flame retardant and also has antimicrobial protection.

“How nice it was to find a company more interested in what’s best for me and not just best for them”

Siena. One simple call is all it takes.

Contact your local Stannah Advisor, who will arrange to visit your home for a friendly free consultation. They will listen to your needs, answer your questions and provide a full, no-obligation quotation. If you decide to go ahead, we will measure your staircase using the latest technology to style your stairlift.
